Experience

Aeronation — *Funded Startup, Genesis Business Society, Quantum University* Mar 2026 – Present

Frontend Developer Intern

- Built production React.js interfaces for **AeroBook** and **UCG** with Tailwind CSS, delivering responsive and cross-browser compatible UI to real end-users.
- Developed a shared component library using component-based architecture, unifying UI patterns across products and reducing code duplication across Agile sprint cycles.
- Integrated REST APIs into React views with state management, error boundaries, and performance optimization via code-splitting and memoization.

BrandOptix

Feb 2026 – Present

Frontend Developer Intern

- Designed and shipped responsive landing pages in React.js and Tailwind CSS, ensuring pixel-perfect cross-browser rendering across all screen sizes and device types.
- Refactored legacy UI into modular, reusable React components and managed full Vercel deployment pipeline from development branch to production release.

Projects

StoreX — Full-Stack E-Commerce Platform Jan 2026 – Present

React.js, Node.js, Supabase, Tailwind CSS, REST API [Live Demo](#) | [GitHub](#)

- Architected a full-stack e-commerce platform featuring Supabase Auth, CRUD product catalog, cart, wishlist, and a role-based admin dashboard with mobile-first responsive design.
- Integrated REST APIs with async state management and optimized component re-rendering for consistent, cross-browser performant UX across all screen sizes.
- Deployed application on Vercel with modular, reusable React component architecture ensuring scalable frontend structure and maintainable codebase.

LUMA AI — AI-Powered Productivity Platform

2025

React.js, Tailwind CSS, JavaScript, AI API Integration [Live Demo](#) | [GitHub](#)

- Delivered an AI productivity MVP under hackathon constraints by integrating external AI APIs into a React frontend with reusable components, async state handling, and accessible UI.

Interactive Animated Portfolio

Oct 2025

HTML5, CSS3, JavaScript, GSAP, Locomotive Scroll [Live Demo](#) | [GitHub](#)

- Engineered a scroll-driven portfolio with GSAP-powered animations and parallax interactions, optimized for Lighthouse performance and cross-browser compatibility.

Education

Quantum University, Roorkee Aug 2024 – Jun 2028
